Subject: Meeting 1/17 on Schedule for completing the RI/FS for Leviathan Mine

Hello Adam,

I understand Lynda and Tony spoke yesterday and worked out the agenda for our meeting next Tuesday, as described in her message below. I am writing to give you a list of attendees, and to request that Atlantic Richfield make a conference line available for the State Water Board participants.

EPA participants will be

Dana Barton, Acting Branch Chief

Caleb Shaffer, Section Chief

Lynda Deschambault, Remedial Project Manager

Sophia Serda, Toxicologist

Andrew Helmlinger, Acting Office of Regional Counsel Section Chief

Joshua Wirschafter, Assistant Regional Counsel

Cory Kroger, Risk Assessor (contracted through the Army Corps of Engineers)

The State Water Board will participate by conference line, with

Scott Ferguson, Supervising Water Resources Control Engineer

Chris Stetler, Senior Water Resources Control Engineer

Douglas Carey, Senior Engineering Geologist

David Coupe, Counsel

We look forward to seeing you all at 9:00 am PST at the Courtyard Marriot at 299 2nd Street in San Francisco.

Regards,

Josh

Joshua Wirtschafter

Assistant Regional Counsel

U.S. EPA, Region IX

ORC-3

75 Hawthorne Street

San Francisco, CA 94105

(415) 972-3912

Subject: RE: Leviathan Mine - Agenda for January 17 Meeting on RIFS Schedule

Thanks for the call/discussion Tony!

As requested, we will proceed with the meeting as you've outlined: higher management level. With ARC doing more of the presentation.

As discussed, I'm glad we can come to some agreement that we can weave in at least these two items for Management Level discussions:

- 1) the Risk assessment process and ARC's position on process for completing them.
- 2) the reporting timelines and ARC position on 15 months to complete/deliver data/evaluation.

EPA fully understands that the technical response to our 12/22 comments ; due Jan 22nd will go into more detail. We agree that this is more "Big Picture" mgmt level for this meeting.

As discussed, I think we can weave those in to the AGENDA this way:

1. Safety Moment

2. Purpose and Meeting Goals :

"Management Level Discussion on initiatives ARC would like to take in regards to tasks, to facilitate the most efficient possible production and delivery of the RI/FS report"

3. 2016 RI/FS Accomplishments

4. Description of ARC's Schedule Projection Process

5. ARC's Concerns with EPA's Proposed Schedule

6. EPA's comments on ARC's proposed process

- a. Risk assessment process and ARC position on completing them in parallel**
- b. reporting timelines and ARC position on 15 months to deliver**

7. Recommendations and Schedule Consensus

Also, as mentioned, it would be good to clarify how ARC can get to a "final" (vs draft) RIFS by the end of 2018.

And we look forward to seeing the TOC and revised Gantt chart in advance of the meeting--- As background and referral only.

Lynda
